# Design essentials

When you want an economical panel in the latest decors, Amerind COLORBOARD has all the essentials.

## Everything you need

Selected from today's most popular woodgrain finishes, contemporary structures and solid colours, the Amerind COLORBOARD collection has everything you need for a great result.

Traditional woodgrains will bring to life the beauty of timbers such as Beech, Poplar, Oak, Walnut and Wenge in your next project.

Solid colours range across the coolest greys, hardworking whites, neutrals and attention grabbing primary red, yellow and blue.

## Practical, durable and versatile

Amerind COLORBOARD is a practical, durable and versatile Low Pressure Melamine (LPM) with a tough, scratch resistant surface.

The range is also available in **matching High Pressure Laminate (HPL)** for post forming benchtops and end panels.

A high quality multipurpose board designed for a broad range of joinery applications, Amerind COLORBOARD is ideal for manufacturing:

- kitchen cupboards
- shelves
- pantries and cabinets
- storage units
- bathroom and laundry cabinets
- wardrobes
- office fitouts and furniture
- retail shop fitouts, counters and shelving

All decors are available with matching ABS edging.

## A leading Australian company

When you choose from the Amerind COLORBOARD range you know you have the support of Australia's leading independent distributor of panel products and manufacturer of decorative architectural finishes.

Since 1970, Amerind has manufactured a range of products in Australia as well as selecting a portfolio of products from overseas.

Our product range includes:

- High quality timber veneers
- Premio architectural panels (HPL)
- Colorboard melamine panels (LPM)
- Solid timber and German engineered laminate flooring
- Furniture and construction grade timber
- Plywood, MDF, particle board and block board
- E0 and FSC approved substrates

## National support

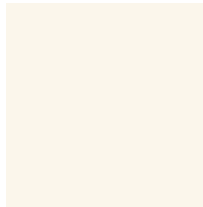

Over the years, Amerind has created a national network of support for professionals in building, cabinet making, architecture and design.

Our team of passionate sales professionals operate from warehouses and offices strategically located in capital cities and regional centres.

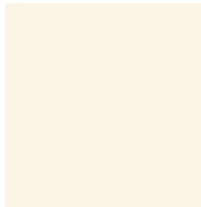

They provide product, finish and colour advice during project planning while our dedicated distribution centres provide rapid response to customer orders.

In addition, product samples and information are as close as your computer, telephone and fax.
